

GOGGLES SIZING GUIDE INSTRUCTIONS

This simple to use sizing guide will help you determine if Cocoons fitover goggles are the proper size to fit over your prescription glasses.

To use the guide, set your print preferences with no scaling and print this document at 100% actual size. Next, place your eyewear face down on the size image. If your eyewear fits within the red box, Cocoons goggles will fit over your glasses. If your eyewear frame exceeds the red box, then your glasses are most likely too large for the goggles to fit over them comfortably.

ISOLATE YOUR EYES
COCOONS

Use this image to check if the document printed at 100% actual size. The image of the coin should be the same size as an actual one pound coin. The image should be 23.25 mm in diameter at full size.

COCOONS FITOVER GOGGLES

Designed to be worn over Rx frames not exceeding
133 mm wide x 51 mm high
